Applicant's Title or Academic Status	
Affiliation/Institution	
Department	
Supervisor(s)	
Desired arrival and departure dates	

Project Details

<p>Project description (400 to 500 words)</p>	
<p>Will the project involve staff or volunteers? If yes, have efforts been made to find local and/or Indigenous people who can fill these roles¹? How many staff/volunteers to you anticipate bringing to the station? List their names if known².</p>	
<p>Is lab space required? If yes, describe requirements and list types and approximate volumes of any chemicals that will be used.</p>	
<p>Are you intending to work with animals? Please describe. Does your proposal have Animal Care approval?</p>	
<p>Do you plan to use SCUBA in connection with your proposed research, or as recreation? ³</p>	

<p>Does your fieldwork require firearms? If so, please attach a photocopy of your PAL and a safety and storage protocol.</p>	
<p>Will you be bringing a boat to the station? If yes, list type, size⁴ and when you will need moorage at Salmon Coast. Please also provide the details of your boat's arrival/departure, if that differs from your own.</p>	
<p>Will your project require station boat rental? If so, outline proposed schedule and drivers (if not Station staff). Please indicate whether you have discussed your plans with the Station Coordinators.⁵</p>	
<p>Does your project involve human research (i.e. interviews, focus groups). If so, please describe and provide details of how you plan to recruit participants. Has your project been evaluated by your institution's Research Ethics Board?</p>	

<p>Does your project involve engagement with local First Nations and/or Aboriginal communities? If so, please describe.</p>	
<p>Have you been in contact with anyone in the community (geographic, social, or otherwise) about your project plans? If so, please describe.</p>	
<p>Please describe your intended project outcomes. Will you be seeking publication, conducting presentations, pursuing media coverage etc.?</p>	

Conservation and Community Benefits

Salmon Coast provides subsidized facilities and accommodations to research projects aligned with our mission to further conservation and community development in the Broughton Archipelago and surrounding region.

<p>Describe how your project contributes to conservation and/or community development in this region.</p>	
---	--

I acknowledge that, as a condition of my project approval, I will deliver one presentation on my research progress during my stay, and provide a project synopsis for Salmon Coast's public education efforts within 30 days of my departure.

PLEASE READ THE FOLLOWING NOTES CAREFULLY

¹Salmon Coast encourages applicants to seek local and/or Indigenous people to fill staff/volunteer positions.

²Project leaders should provide a list of assistant or visitor names as soon as possible, along with their planned arrival and departure times. **Project leaders are responsible for ensuring all staff/volunteers fill out the Emergency Information, User Agreement, and Liability Waiver Forms BEFORE they arrive at the station.**

³Anyone intending to SCUBA dive at the station must get permission from Salmon Coast staff or board and provide proof of certification.

⁴We require drivers of any boat operating out of SCFSS to have appropriate Canadian boat driving certification and experience, and all boats must be properly equipped to meet Transport Canada's small vessel regulations.

⁵Contact the Station Coordinators to discuss user fees and boat rental.
